

COVID-19 UPDATE

Hello CSEA Chapter 607 Members,

I hope this letter finds you in good health and good spirits.

I have been in contact with Dr. Newman from our District and Joni Collins from CSEA. We are all on the same page: keeping our families, students, and communities healthy. This means that social distancing is critical and our schools need to remain closed. Since we are still being paid and are not on Spring Break until March 28, Dr. Newman asks that we check our email daily and respond to communications.

We are currently working with the district on agreement to compensate our brothers and sisters who are required to come in to work during the closure. The district personnel are very busy managing this closure, so we are trying to allow them adequate time to review.

I will keep you posted with updates on that and will continue to advocate for you and our students.

Now more than ever we need to stick together and we need your support. Please remind any potential members this a perfect example of why membership is so important.

Please contact me if you need anything!

Thank you and be safe!

Matt Busacco
President, CSEA Chapter 607
